

Media Statement

TORONTO, November 30, 2023 – Scott Thomson, President and Chief Executive Officer of Scotiabank, released the following statement today on the appointment of Brian J. Porter as Chair of the Ontario Infrastructure Bank:

“At a time when Ontario must deliver on an ambitious agenda to ensure we are building sustainable infrastructure for future generations, it brings me great confidence that the Ontario Infrastructure Bank has appointed Brian Porter as its Chair. I can think of no one more qualified to bring together public and private investment and indigenous communities to build projects in a faster, more fiscally responsible way. Like other jurisdictions across the country, the need for new sustainable infrastructure in Ontario—from transportation to housing—is substantial, and Brian’s deep experience as one of Canada’s most preeminent business and community leaders is exactly what is needed to drive this mandate forward.”
